Connectivity and electrical installation

WORKPLACE  
SOLUTIONS

Weidmüller 

# A high degree of automation for standardised stripping and crimping

## Let's connect.

The progressive automation of individual work steps and processes has now become a key factor with respect to sustainable corporate success. Shortened installation times translate into minimised production costs, enhanced added value and thus greater corporate competitiveness.

At Weidmüller we have been developing stripping, crimping and cutting machines for more than 40 years. We make sure they satisfy ever-growing industrial requirements, with pioneering standards and innovative ideas. Our latest generation of machines are distinct in that they are particularly easy to use and feature robust designs.

Our automatic machines boast an impressively long service life and deliver a consistently high quality of work. Learn about the unique benefits of our machines and get personalised advice. Whether you're dealing with large, medium or small series, we will find a solution that's tailored to your requirements for every application.

# WORKPLACE SOLUTIONS

**4** Cutting machine

**6** Automatic stripper

**8** Automatic strippers and crimpers  
for wire-end ferrules on a reel

**12** Automatic strippers and crimpers  
for loose wire-end ferrules

and dismantling machine

**22** Wire Processing Center (WPC)

**24** Wire-end ferrules

**32** Professional tools for installation

# Precise and flexible cutting

## Cutting machine

### CUTFIX 8

The CUTFIX 8 cutting machine is the right choice for cutting round cables with diameters up to 8 mm in length in medium and large series. This robust automatic machine impresses with its accurate working methods and easy operation. The CUTFIX 8 is the perfect complement to the automatic crimpers.

#### Special properties:

- Excellent repeat accuracy
- Controllable contact pressure on the drive rollers
- Electric drive
- Cutting orders can be managed via PC
- Robust and compact design

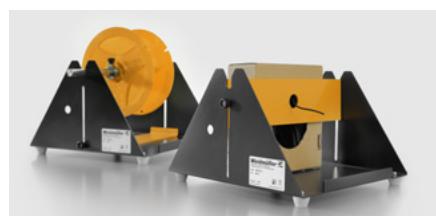

Products	Order number
CUTFIX 8	9023100000
CUTFIX ROLLER	2443360000

CUTFIX 8 with inset display

Very long service life thanks to metal transport rollers

Optional dispenser

### CUTFIX 8 INTERFACE

The CUTFIX 8 INTERFACE has the same mechanical properties as the CUTFIX 8. Thanks to the integrated software interface, the CUTFIX 8 INTERFACE can display CAE-data directly on the screen (e.g. startpoint, endpoint and wire-end processing). The data is transmitted as a package, but is displayed for each wire individually.

#### Special properties:

- CAE-data processing thanks to integrated USB interface
- Precise cutting of circular conductors up to 8 mm outer diameter
- Storage up to 2.000 cutting jobs

Products	Order number
CUTFIX 8 INTERFACE	2580010000

Electrical driven CUTFIX 8 INTERFACE

Simple and clear administration of cutting jobs and wiring data

Read out of the wiring data on the display

# **Small, robust, flexible and easy to operate POWERSTRIPPER automatic strippers**

## **POWERSTRIPPER 6.0 and POWERSTRIPPER 16.0**

The electrically-operated strippers enable precision stripping of conductors with different types of insulation up to an outside diameter of 5 mm (PS 6.0) and 8 mm (PS 16.0). Operation is very easy and special designs are available if cable samples are provided.

### Special properties:

- Cross-section range: 0.05 – 6 mm<sup>2</sup> (PS 6.0) and 2.5 – 16 mm<sup>2</sup> (PS 16.0)
- Infinitely variable adjustment of wire cross-sections – no need to change tools
- Infinitely variable adjustment of stripping and pull-off lengths (3 – 20 mm)
- Partial stripping function
- Titanium-coated V-radius blade (can be used on both sides)

Products	Order number
POWERSTRIPPER 6.0	9028510000
POWERSTRIPPER 16.0	9028480000

Fast and simple cross-section adjustment

Insertion funnel for smaller cross-sections

Precise adjustment of stripping parameters

## **POWERSTRIPPER 6.0 and POWERSTRIPPER 16.0**

The electrically-operated strippers enable precision stripping of conductors with different types of insulation up to an outside diameter of 5 mm (PS 6.0) and 8 mm (PS 16.0). Operation is very easy and special designs are available if cable samples are provided.

### Special properties:

- Cross-section range: 0.05 – 6 mm<sup>2</sup> (PS 6.0) and 2.5 – 16 mm<sup>2</sup> (PS 16.0)
- Infinitely variable adjustment of wire cross-sections – no need to change tools
- Infinitely variable adjustment of stripping and pull-off lengths (3 – 20 mm)
- Partial stripping function
- Titanium-coated V-radius blade (can be used on both sides)

Products	Order number
POWERSTRIPPER AUTO 2.5	9027270000
POWERSTRIPPER AUTO 16.0	9027290000

Automatic adjustment to the respective cross-section

Infinitely variable adjustment of the stripping length and partial stripping

Display with counter readings

POWERSTRIPPER 6.0

Weidmüller 

# Crimp small series quickly and flexibly

## Stripping and crimping machines for wire-end ferrules on a reel

### CRIMPFIX E

The CRIMPFIX E as a pure electrical driven stripping and crimping machine is enabling a process safe processing of wire-end ferrules on reel at harmonized PVC conductors. The machine is processing the cross-section range of 0.5 to 2.5 mm<sup>2</sup> (AWG 20-14) in crimping length 8 mm. Fast and easy adjustments of machine parameters across the full range of cross-sections is simplifying the usage of the machine.

#### Special properties:

- 3-level stripping blade adjustable for each cross-section
- Change of tools not necessary
- Crimping length 8 mm
- Integrated day counter, overall counter and service counter

Products	Order number
CRIMPFIX E	2439140000

Stripping and crimping in one step

Simple adjustment of stripping levels

Simple menu navigation via the display

### CRIMPFIX R

The CRIMPFIX R offers even greater flexibility when processing various conductor insulations (e.g. halogen-free conductors). The electro-pneumatically driven stripping and crimping machine processes wire-end ferrules on reel ranging from 0.5 to 2.5 mm<sup>2</sup> (AWG 20-14) and crimping length of 8 mm.

#### Special properties:

- Crimping quality in accordance with DIN 46228
- Change of tools not necessary
- Crimping length 8 mm
- Optional magazine available

Products	Order number
CRIMPFIX R	9028500000
CRIMPFIX MAGAZIN	2443370000

Automatic cross-section adjustment from 0.5 to 2.5 mm<sup>2</sup>

Separate stripping mode adjustable

Processing of linked, reeled wire-end ferrules

# Easy operation for varying cross-sections

## CRIMPFIX R VARIO, the flexible and robust all-rounder

### CRIMPFIX R VARIO

The CRIMPFIX R VARIO enables the simple processing of various cross-sections from 0.5 – 2.5mm<sup>2</sup> (AWG 20–14). By selecting the cross-section on the display the machine automatically loads the crimp die with the according ferrule. Besides simple handling, the CRIMPFIX R VARIO is characterised by quick processing time and reliable processing of various insulation materials and crimping lengths as well as the quick change between different wire-end ferrules.

#### Special properties:

- Processing various crimping lengths (8 and 10 mm)
- Wide ranging use of Weidmüller ferrules (on reel)  
(Standard 8 mm, 10 mm and versions with enlarged plastic collar)
- Fast cycle time
- Easy handling
- Pre-loading of up to 23.000 wire-end ferrules for easy processing

Products	Order number
CRIMPFIX R VARIO	2580000000

Quick processing of various cross-sections without the need for tool changes

One-touch adjustment between cross-sections

Adjustment to various crimping lengths (8 mm and 10 mm)

5 slot magazine for set up of cross-sections

Combined application of Weidmüller ferrules (Standard- and enlarged plastic collar)

Display from crimp counts (daily, total and service count down)

# A fast all-rounder to meet your individual requirements

## Stripping and crimping machines for loose wire-end ferrules

### CRIMPFIX L/LS

The CRIMPFIX L/LS universally processes loose Weidmüller wire-end ferrules with various cross-sections. The electro-pneumatically driven stripping and crimping machine is suitable for cross-sections from 0.5 to 2.5 mm<sup>2</sup> (AWG 20–14) and accommodates various crimping lengths.

Special properties:

- Change of tools not necessary
- Short pulse times
- Processing also of special wire-end ferrules with a large plastic collar
- Crimp shape: trapezoidal, optional PZ3 crimp
- Crimping length: CRIMPFIX L: 8 mm, CRIMPFIX LS: 6, 8 and 10 mm

Products	Order number
CRIMPFIX L	9028530000
CRIMPFIX LS	9028540000

CRIMPFIX LS: three different crimping lengths – no need to change tools

Adjustable stripping blade for the best stripping quality

Adjustable trigger sensor for optimum stripping length

### CRIMPFIX LZ

You can process loose Weidmüller twin wire-end ferrules ranging from 2 x 0.5 to 2 x 1.5 mm<sup>2</sup> (AWG 2x20–2x16) with the electro-pneumatic CRIMPFIX LZ stripping and crimping machines.

Special properties:

- Crimping quality in accordance with DIN 46228
- Change of tools not necessary
- Short pulse times
- Crimping length 8 mm

Products	Order number
CRIMPFIX LZ	9027310000

Stripping and crimping in one step

Integrated interior lighting for a better overview

Touchscreen display with simple menu navigation

### UL-certified crimp connection

The UL certification for our crimped, insulated wire- end ferrules means that Weidmüller has opened up an amazing number of possible applications for use around the world. The UL approval is valid for wire-end ferrules, manual tools and crimping machines from Weidmüller, as an overall system.

## Automatic strippers and crimpers for loose wire-end ferrules

### CA 100 C

The CA 100 C electro-pneumatic stripping and crimping machine is suitable for the efficient processing of loose, insulated and non-insulated Weidmüller wire-end ferrules. The modular device processes stripped wire-end ferrules ranging from 0.14 to 0.34 mm<sup>2</sup> (AWG 26–22) and optional wire-end ferrules without plastic collars from 0.25 to 0.76 mm<sup>2</sup> (AWG 24–18).

#### Special properties:

- Simple tool change
- Very compact design
- Crimping length: CA 100 C: 6 or 8 mm

Quick-change tool for extremely short retooling times

Removable touchscreen operating element

Products	Order number
CA 100 C	On request

Crimping of stripped wire-end ferrules and optional wire-end ferrules with no plastic collars

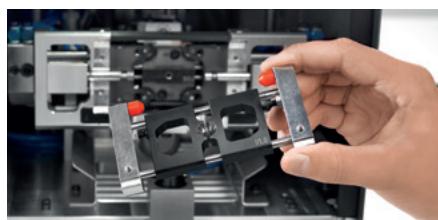

### CA 100/2.5 und CA 100/10

Both models are suitable for the efficient processing of loose, insulated Weidmüller wire-end ferrules and may also be optionally used for non-insulated wire-end ferrules. The CA 100/2.5 can be converted for wire-end ferrules with cross sections from 0.34 to 4 mm<sup>2</sup> (AWG 22–12). The CA 100/10 can be converted for wire-end ferrules with cross-sections from 4 to 10 mm<sup>2</sup> (AWG 12–8) with an option of up to 16 mm<sup>2</sup> (AWG 6). Both machines are available with square or trapezoidal crimp shapes.

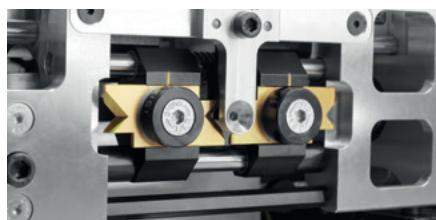

#### Special properties:

- Simple tool change
- Crimping length: CA 100/2.5: 6–12 mm and CA 100/10: 8–18 mm
- With optional special blade conversion as a function of cable type

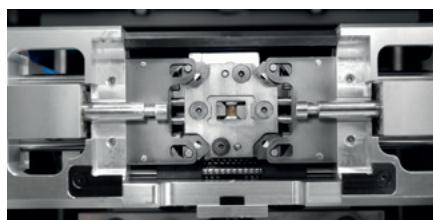

Products	Order number
CA 100/2.5	On request
CA 100/10	On request

Quick-change tool for extremely short retooling times

Stripping blade can be used on both sides

CA 100/2.5 with square crimping tool

## Ideal for industrial applications

### Automatic stripper and crimper and dismantling machine

#### CA 4/8 Indent

The CA 4/8 Indent is an electro-pneumatically driven stripping and crimping machine for processing loose, turned pin and socket contacts. The contacts are supplied with power automatically via an oscillating conveyor. The settings for the stripping and crimping depth are motor-driven. The machine is operated via the easy-to-use touchscreen display, which clearly shows all the key data, functions and status messages. The CA 4/8 Indent has an internal memory for 50 different programs. Using the corresponding tool set, the CA 4/8 Indent can be retrofitted to suit different contacts and/or lines.

##### Special properties:

- Very robust design for a long service life
- Short pulse times
- Crimp shapes: Indent, optional B-Crimp and Hex-Crimp

Processing of loose, turned pin and socket contacts

Individual adjustment of the cable holding force

Products	Order number
CA 4/8 Indent	On request

Automatic adjustment of the stripping length and crimp depth

#### PS AM 12

The electro-pneumatically driven dismantling machine enables the precise stripping of conductors with various types of sheathing and up to a maximum outside diameter of 11.9 mm. The settings for the stripping length, part stripping and cutting depth are very easy to adjust.

##### Special properties:

- Stripping a cable with an outside diameter of 3.5 mm to 11.9 mm
- Use of wire cross-sections with adapted V-radius blades
- Infinitely variable adjustment of sheath stripping and pull-off lengths

Stripping of connectors up to an outside diameter of 5 mm

Infinitely variable adjustment of stripping and pull-off lengths

Products	Order number
PS AM 12	153470000

Simple to change blades for different connector types

CA 4/8 Indent

Weidmüller 

# Process safe connections at a high degree of flexibility

## The electro-pneumatic crimping machine POWERCRIMPER 6.0

### POWERCRIMPER 6.0

The POWERCRIMPER 6.0 offers a high degree of flexibility when processing wire-end ferrules. Ferrules with and without plastic collars can be processed as well as twin ferrules without tool changes. The pneumatic-electrical drive ensures the machine is robust and durable. The crimping machine is processing insulated and non-insulated wire-end ferrules from 0,5 - 6 mm<sup>2</sup> (AWG 20 - 10) and twin wire end ferrules from 2 x 0,5 - 2 x 2,5 mm<sup>2</sup> (AWG 2 x 20 - 2 x 14).

#### Special properties:

- Flexible uses in wire-end ferrule processing
- Fast and simple cable confectioning
- Robustness and longevity
- Crimping length: 6 - 18 mm
- Crimp shape: Quadro

Product	Order number
POWERCRIMPER 6.0	2634310000

Operation via foot switch enables process acceleration

Tool-less change to different wire-end ferrule types

Highest level of flexibility in combination with POWERSTRIPPER 6.0

# Cable assembly with the highest efficiency

## The highly flexible Weidmüller Wire Processing Center (WPC)

### Wire Processing Center (WPC)

The Weidmüller WPC is a modular assembly system consisting of cable processing machines and industrial printers. The modules are interconnected via integrated interfaces and controls via specialised software.

The WPC gives users maximal freedom to enter data, control process, and integrate components like cable entry, cable sorting, or additional printers. Users can execute project plans with ease and flexibility.

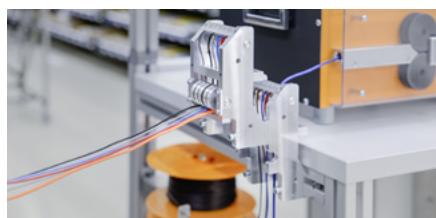

#### Special properties:

- Optimal processing of a wide variety of finishing tasks
- Flexible usage options
- Optimal integration into manufacturing processes
- Optimal process reliability
- Reliable replenishment with wire-end ferrules and markers

Product	Description of Article	Order number
WPC	Wire Processing Center	2634120000
WPC WAGON	Workshop wagon	2634140000
WPC KBZF A	Cable feeding option A	2666380000
WPC KBZF B	Cable feeding option B	2666390000
WPC GFSN	Grip plate station	2666400000

Touchdisplay with integrated software

Different cable feeding options

Additional plugs, like USB, mains and air pressure

High degrees of flexibility through use of semi-automatic machines

Consideration of customer requirements

Modular system of machines, printers and appropriate software

# Your guarantee for standardised connections

## The right combination of tools, automatic machines and wire-end ferrules

Guarantee the quality of your electrical connection in the long term by purchasing all of your components from a single source. We have an extensive range of wire-end ferrules and insulated cable connectors available for you. These can be optimally synchronised for use with Weidmüller tools and automatic machines. High-quality and certified in accordance with all common worldwide standards.

### Wire-end ferrules and insulated cable connectors

Wire-end ferrules from Weidmüller ensure safe connections and you benefit from a wealth of advantages when installing and maintaining your systems. Our vast range of products includes wire-end ferrules both with and without plastic collars, as well as twin wire-end ferrules in all standard colours.

The insulated cable connectors from Weidmüller also guarantee a reliable connection quality. These are mainly equipped with a conical insertion funnel, ensuring optimum conductor entry as the strands centre themselves. This saves time and money during installation.

### CSA US certification

The following wire-end ferrules have CSA US certification:

- Loose wire-end ferrules from 0.14 mm<sup>2</sup> to 50 mm<sup>2</sup> (AWG 26–1)
- Twin wire-end ferrules from 2 x 0.5 mm<sup>2</sup> to 2 x 16 mm<sup>2</sup> (AWG 20–6)
- Special wire-end ferrules for small terminal compartments and AWG lines
- Strips of linked and reeled wire-end ferrules from 0.5 mm<sup>2</sup> to 2.5 mm<sup>2</sup> (AWG 20–14)
- Non-insulated wire-end ferrules from 0.14 mm<sup>2</sup> to 50 mm<sup>2</sup>

### UL certification

The following wire-end ferrules have UL certification:

- Loose wire-end ferrules from 0.14 mm<sup>2</sup> to 50 mm<sup>2</sup> (AWG 26–1)
- Strips of linked and reeled wire-end ferrules from 0.5 mm<sup>2</sup> to 2.5 mm<sup>2</sup> (AWG 20–14)

Weidmüller crimping tools and automatic machines

+ Weidmüller wire-end ferrules

= Approval

### Insulated wire-end ferrules, manual tools and machines

Weidmüller wire-end ferrules are UL-certified. This applies to most stripped wire-end ferrules in the cross-section range from 0.25 – 50 mm<sup>2</sup> (AWG 24–1). Wire-end ferrules with plastic collar, twin wire-end ferrules, wire-end ferrules for short-circuit and earthed cables and wire-end ferrules with plastic collars in special sizes are certified in the following packaging units:

- in loose packaging
- in multi-pack bag
- strips of linked wire-end ferrules
- reel of linked wire-end ferrules

Please note that the UL certification is only applicable if they are processed using Weidmüller manual tools or automatic units from the tooling list below.

# Wire-end ferrules with plastic collar, special sizes

- Polypropylene conical cable entry funnel
- Heat-resistant up to 105°C
- Entry funnel can also be manufactured from a non-flammable material on request

For conductors from 0.14 – 1.5 mm<sup>2</sup> (AWG 26–16)

Material: E-Cu, tin galvanised

Dimensional tolerance acc. to DIN 46228 part 4

# Increase your productivity

## Professional tools for installation of wire-end ferrules

The right tool makes everything better. That's why we've been developing and producing quality tools to satisfy the most stringent requirements for more than 30 years. And we never lose sight of our goal – supporting you on a daily basis. With clever products that make your work easier, optimise your work processes and guarantee your company's productivity in the long term.

### Voltage testers

Achieve the best results. The unique design and excellent functionality of our two-pole voltage testers boost working efficiency and accuracy.

### Wire-end ferrules and insulated cable connectors

Ensure connections that are safe over the long term and benefit from a wealth of advantages during installation and maintenance – with wire-end ferrules and insulated cable connectors from Weidmüller, available in a wide range of versions and colours.

### Crimping tool

In many installations there is only a small amount of space available in the panel. That's why the PZ 6 Roto L crimping tool has a rotating crimp insert, which allows the wire-end ferrule to be inserted from the front or side.

### Stripping tool

Our self-adjusting stripax® stripping tool offers accurate stripping results for conductor cross-sections from 0.08 to 10 mm<sup>2</sup>. The ideal supplement: the stripax® 16 stripping tool with shaped blade – for conductors from 6 to 16 mm<sup>2</sup>.

#### **Automatic machines**

Reduce your installation times and increase your productivity. Our robust automatic machines are sure to impress you with their long service life and consistent levels of performance and quality. For processing various types of wire-end ferrule and for cutting and stripping tasks involving a wide range of cable types.

#### **Pliers**

Guarantees safe and accurate work on sensitive electronics. Our ESD pliers feature a special handle material that prevents electrostatic discharge.

#### **Cutting tool**

Ensure optimum finishing. The specially shaped cutting geometry of our KT 8 ensures a smooth, crush-free cut without distorting the conductor – every time.

#### **Torque screwdriver**

Always work in the right torque range. Our torque screwdriver guarantees safe, gas-proof clamping without mechanical damage to the clamping yoke and with a voltage drop which is considerably below the required limits.

As experienced experts we support our customers and partners around the world with products, solutions and services in the industrial environment of power, signal and data. We are at home in their industries and markets and know the technological challenges of tomorrow. We are therefore continuously developing innovative, sustainable and useful solutions for their individual needs. Together we set standards in Industrial Connectivity.

We cannot guarantee that there are no mistakes in the publications or software provided by us to the customer for the purpose of making orders. We try our best to quickly correct errors in our printed media. All orders are based on our general terms of delivery, which can be reviewed on the websites of our group companies where you place your order. On demand we can also send the general terms of delivery to you.
